

To All Our Parishioners and Friends,

Like you, we are monitoring the developments regarding the spread of COVID-19. We appreciate the trust you have in us and know that the health and safety of all our parishioners and visitors are our top priority. With that being said, a few things for you and your family to know:

The Diocese of Cleveland has come out with a statement concerning the COVID-19 and specifically how it will affect worship.

We have the overview of the statement in this weekend's bulletin as well as on the Parish Website (www.stlads.org).

We are doing everything we can to follow the protocols the Diocese has given us and we ask that every participant follow sanitary guidelines (for example washing hands, staying home when sick, and limiting touch contact).

We will continue to inform you on any news from the Diocese or any cancellations that may occur at St. Ladislav Church. We appreciate your patience with us as we learn more about this virus and what we can do to limit the spread.

Once again, please continue to check your email for further news, as we will update you as frequently as we are able.

God Bless,
Father Don
